

MDPI

Biomedical Research Centre (CIBM) maintains an active collaboration with MDPI, particularly through the affiliated journals International Journal of Molecular Sciences (IJMS), Nutrients, and Cancers. This partnership supports the promotion of high-quality, peer-reviewed research and scientific exchange.

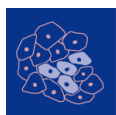

Via this affiliation, CIBM members are offered a discount* on the article processing charges (APC) to publish in an affiliated journal, as well as the possibility to set up dedicated Special Issues related to the Society conferences or research areas, to include selected papers published in open access form, at a discounted fee.

CIBM members who would like to publish with one of the selected MDPI journals using the members' discount, please contact to Prof. José L. Quiles (@email) to be issued with the discount code and further instructions.

International Journal of
Molecular Sciences

The *International Journal of Molecular Sciences* (IJMS, ISSN 1422-0067) is an international, peer-reviewed, open access journal providing an advanced forum for biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry, and is published semimonthly online by MDPI. IJMS has high visibility being indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

cancers

Cancers (ISSN 2072-6694) is an international, peer-reviewed open access journal on oncology. The journal publishes high-quality articles including basic, translational, and clinical studies on all tumour types. *Cancers* has high visibility being indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

nutrients

Nutrients (ISSN 2072-6643) is an international, peer-reviewed open access advanced forum for publishing studies related to Human Nutrition. It publishes reviews, regular research papers and short communications. Our aim is to encourage scientists to publish their results in as much detail as possible. Nutrients has high visibility being indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and **other databases**.
